

Description: LED Tail Light
Part Number: 311052-311061-311073-311168
Application: 1994-2001 Dodge Ram

Tools needed: T27 torque screw.

Step 1: Locate the two t27 screws and remove them.

Step 2: Take off the tail light from the vehicle.

Step 3: Twist off the light bulbs from the tail light.

Step 4: Take off the bulb for the turn and brake light off the wire harness.

Step 5: Pull out the new Anzo tail light and locate the loose 1157 wedge connector. Plug this into the light bulb wire harness lining up the black wire to black and green to green.

Step 6: Twist the light bulb wire harness into the new Anzo light.

Step 7: Reinstall the tail light to the vehicle.

Step 8: Test all functions before driving.

AnzoUSA™ products are covered, by a limited one (1) year warranty, to be free of manufacturer's defects. However, certain AnzoUSA™ product categories have warranty policies which differ from this standard, please contact your representative for detailed category information. Damage due to improper installation or road hazards is not covered. Seller and manufacturers' only obligations shall be to replace the product proven to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
