Engine Power

POWER AT THE CRANKSHAFT

The AWE Tuning Touring Edition Exhaust unlocks additional power from the S6 and S7 4.0L Twin Turbo engine. Peak power gains are 18 HP and 6 TQ. Maximum power gains are measured at 27 HP @ 4550 rpm and 31 TQ @ 2500 rpm.

All tests were conducted in controlled ambient conditions on 93 octane fuel. Published results are representative of all recorded valid power tests.
